MESSAGE FROM DISTRICT GOVERNOR

Dear Rtr. Prabin Gautam
Greetings to You,

At the outset, let me congratulate you for taking over the leadership of the club for the year 2020/21.

We all should consider ourselves to be very fortunate that we are a member of a very reputed and extremely popular organization called Rotary. Since its inception more than hundred years ago Rotary has done so many wonderful and life changing service projects that have benefitted many people and communities around the world for good.

Having said that, though Rotaract joined the Rotary family only in the sixties I must admit that Rotaractors have played a very significant role to put Rotary in a strong position that it is in today. The youths have contributed so much in service projects, RYLA, vocational training programmes, leadership to name a few. It is also very encouraging to see that many Rotaractors are gathering to open their own Rotary Clubs or joining various other Rotary Clubs.

Recognizing the excellent contribution of the Rotaractors and the contribution that they have made in the growth of Rotary the Rotary International has decided in its last "Council of Legislation" meeting that Rotaract will no longer be a programme of Rotary but a member of the Rotary International. In fact, from July 2022 Rotaractors will get the opportunity to pay a minimum fee and become the member of Rotary International. What a positive change the Rotary International has made and I would like to congratulate each one of you for this achievement.

In the coming year 2020/21 as the serving District Governor I have made changes to include Rotaractors in various important District Committees. These inclusions will not only encourage Rotaractors but will also give a good exposure to them about Rotary and will motivate them and others to join and work for Rotary.

With the support of all the youths I look forward to work with you together in the year 2020/21 as Rotary is a platform where opportunities open not only to serve but to develop our own personalities. Therefore, let us take the advantage of RI President Rtn. Holgar Knaack's theme of "**Rotary Opens Opportunities**" with the mindset of "Together We Can" and work together to do good in the world.

Thank You and Good luck.

Regards,
Rtn. Rajib Pokhrel
District Governor 2020/21
District 3292 Nepal and Bhutan

MESSAGE FROM ZONAL ROTARACT REPRESENTATIVE

Dear President

Rtr. Prabin Gautam,

Best wishes for leading a Vibrant Rotaract Club and congratulations for getting a golden opportunity to prove yourself as a symbol of success wherever you are. I am so proud to be the Leader of the Zone as Zonal Rotaract Representative (ZRR) for this Rota year in such a Great Zone in which we made over the years, and, even more important, to be working with the Clubs and leaders like you.

I cannot begin to express my thanks and Congratulations in all the way to the very Succeed Presidency of Outgoing President, **Rtr. Dr.Roshan Sah**, how inspiring! Our Relation between clubs in our Zone has been more strength due to his significant interactions and Collaborations.

"None of us, including me, ever do great things. But we can all do small things, with great love, and together we can do something wonderful." Following this beautiful saying of Mother Teresa, I am eagerly waiting for implementing the theme of DRR, "**CREATING VALUE**" for opening opportunities through Rotary movements. Emphasizing our Zonal strength and relation in a proud way I am eagerto collaboratein joint Zonal levelprojects and fellowship programs that can have direct personal participation of all our members of our Zone IV.

I would also like to Congratulate all elected Board Members of **Rotaract Club of Pokhara Gandaki Medical College** and wishing all for impactful change in our community and in Rotaract Movement and continue to be an impression as a shining model for excellence in leadership.

'REQUESTING ALL TO STAY SAFE AND SUPPORT THE NEEDY IN THIS COVID-19 PANDEMIC'

Regards!

Rtr.Bishow Darshan Parajuli

Zonal RotaractRepresentative (ZRR),

MESSAGE FROM DISTRICT ROTARACT REPRESENTATIVE

Dear President

Rtr. Prabin Gautam

Rotaract Club of Pokhara Gandaki Medical College

Namaskar and warm Rotaract Greeting,

I am delighted to congratulate club leaders of RY 2019-20 for note worthy performance throughout the year to take Rotaract moment forward and take club to a newer height. Congratulations to all office bearers of the club as we welcome the new Rotary Year 2020-21 and look forward to work together to create value.

The theme for this Rotary Year “**Creating Value**” refers to the process of creating value of our members within the club, District, community, and society. Furthermore, Creating Value resonates with the idea of enhancing professionalism and supporting the community’s needs to create the value of Rotaractors and of Rotaract as a brand.

Extending this concept, the objective of Creating Value is to establish the Rotaract fraternity as a place for not just community service but the place where you can have professional benefits as well. It is a high time to recognize Rotaract as the forum where you can grow professionally, build networks with other professionals, and nurture young leaders.

Rotary Year 2020-21 also marks the final year of 3 years vision set by Rotaract District 3292. As we work together to achieve our shared vision, we shall also focus on enhancing professional opportunities for our member. As RI President Rtn. Holgar Knaack explained the theme for Rotary Year 2020-21 ‘**Rotary Open Opportunities**’, he highlighted that “everything we do opens another opportunity for someone, somewhere”. Amid the global COVID-19 pandemic that we find ourselves surrounded in, this can be reflected in the ways our clubs and members have embraced technology and explored creative opportunities in ways we conduct our projects and serve our communities.

As your District Rotaract Representative, I strongly believe that embracing values of Rotary, we are capable of opening doors of opportunities to create value of our clubs and members within Rotary-Rotaract and beyond. As District Rotaract Representative, and of behalf of the District team, I wish your club a successful year ahead and would like to ensure our support in every step as we embark our journey to a new Rotary Year.

Regards,

Rtr. Sanjib Paudel

District Rotaract Representative, RY 2020-21

MESSAGE FROM DISTRICT ROTARACT COMMITTEE CHAIR

June 16, 2020

Dear Trailblazer,

I will like to congratulate President Rtr. Prabin Gautam and your team for Rota Year 2020/21.

As we come close to the start of Rota Year 2020-2021 and prepare ourselves to work under the theme of our RI President Rtn. Holgar Knaack "**Rotary Opens Opportunities**", our District Governor Rtn. Rajib Pokharel "**TOGETHER WE CAN**" and DRR Rtr. Sanjib Paudel "**CREATING VALUE**". Let us put all effort to open opportunities to serve and transform the lives of people who need the most.

We all know "The journey of thousand miles begin with one step"; what happened yesterday, no longer matters.

Today is another day. Get back on the right track and move closer to your dreams. We all are very confident you and your dedicated team will do much more.

We cannot enrich our lives without enriching others, the beauty of life does not depend on how happy we are, but happy others can because of us, the happiest people are not those getting more but giving more.

We all are confident that your leadership will be an example for others also; we are all with you to walk an extra mile to make our Rotary Rotaract movement stronger.

We will work together to make our "Rotary" more visible stronger through our friendship & fellowship by serving our needy community.

Thank you and wish you all the best.

Yours in Rotary

Rotary Club of Pokhara

MESSAGE FROM IMMEDIATE PAST PRESIDENT

Fellow Rotaractors,

It was delightful movement to serve as the 4th legacy holder of Rotaract club of Pokhara Gandaki Medical College. It was actually an opportunity as well as challenges. Opportunity to strengthen the club, growth and development beyond our professionalism and challenges to step forward the club. I think we put our best effort toward our RI President Mark Daniel Maloney theme "**Rotary Connects the World**", our District 3292 theme "**सक्षमता र साझेदारी**" -Competence and Collaboration" through our activities, project and service toward the change making of society. We simply tried to move together with our club theme for the year "**Unite Together, Achieve Better**".

I would like to thank all the Rotary and Rotaract fraternity who did their best and supported us. These thanks are for the togetherness that we all spend together with smile and courage during our hard time. I think we, with the team effort achieved much of success. I cannot be more pleased with our accomplishment, although I certainly can't fully take credit for them. The credit belongs to the enthusiastic, innovative and hardworking members of Rotaract club of Pokhara Gandaki Medical College.

I would like to express sincere gratitude to our Parent Rotary club-Rotary Club of Pokhara and Gandaki Medical College for the tremendous support toward us. I express my thanks to **Past Presidents Rtr. Dr. Sanjeep Ranjitkar, Rtr. Dr. Ram Adhikari and Rtr. Prakriti Dhakal** for supporting us throughout our journey. Similarly I would like to thank my backbones "Boards of 2019-20" and all the active members who walked with me. If this club had achieved something and known for anything in the society it's because of hard work of members of this club.

This legacy is a matter to be handed for continuity. I am pretty much sure that the Rota year 2019-20 have safely handed to new Rota year 2020-21 with the dynamic leader **President Rtr. Prabin Gautam** and team. Congratulations! With best wishes for successful tenure. I will be supporting in all the actions, Be sure for that.

Wishing all the Good Hearts, Special Thanks from bottom of my heart for the delightful year 2020-21.

Jay Rotaract!

Thank you!

Rtr. Dr. Roshan Sah

Immediate Past President

MESSAGE FROM TWIN CLUB PRESIDENT

Dear Rtr. Prabin Gautam

On behalf of **Rotaract Club of Dhaka Fort, RID 3281**, I would like to extend my heartiest congratulations to you on becoming the President of Rotaract Club of Gandaki Medical College for the Rotary Year 2020-21. My best wishes to you and your generous club officials for the willingness of taking the duties and responsibilities of leading Rotaract Club of Gandaki Medical College. Also, I would like to acknowledge and congratulate the **President of Rotary Year 2019-20, Rtr. Dr. Roshan Sah** for the wonderful work, he and his team had done in the Rotaract Movement.

MESSAGE FROM TWIN CLUB PRESIDENT

Dear fellow Twin-club mates,

Firstly I would like to congratulate and extend my best wishes to our Twin President **Rtr. Prabin Gautam** & all the club members of Rota Year 2020-21 for taking up the esteemed leadership roles in the club. Likewise, congratulations and kudos to the IPP **Rtr. Dr.Roshan Sah** & all the members of Rota Year 2019-20 for successfully carrying forward the legacy of Rotaract.

I and my entire club members are very happy to have renewed our **Twin-ship** with **Rotaract Club of Pokhara Gandaki Medical College** this year too. We believe that both of our clubs, **RAC Bhaktapur** & **RAC Pokhara GMC** share a very special bond and that we promise to celebrate this bond throughout the year and beyond. As planned in our 1st Joint meeting of this year, we are looking forward to more joint meetings, Joint Projects & Fellowships so that we can make this bond even more meaningful and we can create greater impacts in our lives and in the lives of people who need our help.

Complementing our Club themes "**Service & Empowerment**" and "**Let's Grow Together**" I am sure this synergy will definitely help us in Creating Value. And let us all open every Opportunities possible because ROTARACT is where we find like-minded people that we can turn our crazy big idea into an impactful bigger action.

Cheers to our everlasting Twin-ship!!

MESSAGE FROM SISTER CLUB PRESIDENT

Dear Rtr. Prabin Gautam

And team

Namaste!!

It's my pleasure to wish you all best up luck for Rota year 2020/21. I would like to thank you and RAC Pokhara GMC for allowing me to present best wishes on the behalf of Sister Club President. We have years of bounded relationship with several memories in Rotaract journey. I would like to thank **Rtr. Dr. Roshan Sah** for his dedication and effort during Rota Year 2019/20.

All the past leaders from both clubs have worked hard to get the clubs these heights and also for such bounded relationship between us. This responsibility has been transferred to us now and we both must persevere to make sure that the insignia of both the clubs shine the brightest than ever before. We Rac Pokhara team are looking forward to work together with you so as to strengthen our bounding and fulfill our duties as responsible Rotaractor. It is a tough challenge to exceed the legacy that has been created, but I am sure that we can make it happen. Let's make it sure that the legacy of both the clubs attains further heights.

Moreover, Pandemic situation arise by covid-19, had raised more challenges and difficulty for us. Though, hope we will make some milestone projects and effort so that our relationship will be at new height.

Finally, I would like to take this opportunity to extend my best wishes to **Rtr. Prabin Gautam** and his team for successful tenure. I believe that together we would definitely be able to build a unique identity in Rotaract world and district 3292. I would also like to wish you Good luck for your entire tenure. Hope together we will make some more effort to inbound relationship between RAC Pokhara and RAC Pokhara GMC.

Jay Rotaract!! Jay Rotary!!

With Best Regards,

PRESIDENT MESSAGE

Dear Rotaractors and friends;

Greetings!

Firstly I Would like to express my gratitude to all the past presidents and club members for having me as president for this rota year. I promise to exceed all my capacities, invest myself and give my best during my tenure for the growth of our club.

This rota year I present you the theme "LET'S GROW TOGETHER" .Mother Teresa once said;"*I can do things you cannot, you can do things I cannot .Together we can do great things*".This year let's help each other grow and nurture ; let's teach each other greater things. Let's enhance the professional development of all the members together and make our club administration stronger than ever. Indeed, togetherness is a wonderful thing and being in a place helping each other grow together is a wonderful place to be.

I would like to thank our IPP Dr. Roshan Shah and his team for successfully completing his tenure. Dr. Roshan did a great for the club and helped the club grow even more. I believe that the support and helping hand of all of us together will lead the way for this year to promote the Rotaract Movement.

Finally, I would like to request my board members, general members, past presidents and advisers to work together to grow even more and make this Rota year successful. We will look into the abyss of growth, embrace it and grow together .

With regards,

DILEMMA

How many of you can relate
The dilemma between love and hate
You remember the person's lovely gaze
But don't ever want to see their face

The battle is your very own
Never can it be publicly shown
All the tears masked by your smile
Still the same fears follow for miles
After the dusk comes the dawn
But why do the old memories still haunt?

Everything starts with a beautiful hope
But happiness marks off at a lopé
Amid the togetherness
Comes the bitter taunt
You ask for forgiveness
Though not at fault
You are never appreciated
For your relentless efforts
You become excruciated
Due to lack of slightest support

Starts the breakage of all sweet bonds
You start sinking into a slough of despond
In your mind resonates disturbing sounds
Hurting like biting wild hounds.

Tears rolling down your eyes
Broken promises, endless cries
Memories that never fade away
A strange guilt that always seems to stay
Of losing yourself for others
Of always being the one to bother.

While giving all your genuine care
Thinking everything you shall share
You put everything at stake
But the person says this is a mistake.
And fires little grenades ruthlessly
Which you struggle to battle endlessly,
Due to loving people not your worth
You are put at the edge of a sword.

A nervous breakdown that makes you hate
But you were once welcome in their gate
Nostalgic moments that make you love
But you were given a hefty shove
Indeed it's very tough to explain
The dilemma between love and hate.

Makeup And Skin Care

-Sadixya Gurung

I am Sadixya Gurung, makeup artist from Pokhara. Thank you for having me in this year's segment. Talking about me, I've always been very fond of arts since I was a little girl. Asides from makeup, sketching, painting and anything art has basically been my hobby. I got into this career officially at the age of 17. Before that I was still very enthusiastic for makeup but I wasn't sure of my career as a makeup artist. And there weren't as much opportunities for artists as it is now. But still I had this inner feeling that I can achieve anything once I set my full intentions and actually implement actions towards it.

For me, makeup is a form of art. Every time when I'm doing a makeup look on my clients, I see their faces as a beautiful canvas where I can create beautiful looks that compliment their faces. Also, my makeup style is more on the "subtle but glam" side. I like it Subtle and Enhanced. Because I believe everybody is different and they all are beautiful on their own ways and makeup is always there to enhance the features and make it look even more beautiful. Likewise, makeup is such a quick confidence booster as well. Wearing makeup gives people confidence and makes them feel smarter. It is definitely not a must for everyone but it's their own preference. It helps them to enhance their confidence. Research also shows that wearing makeup can provide a better sense about self esteem which may bring positive effects on the cognitive performance of an individual.

Talking about makeup in itself, what's even more important and what all of us often tend to forget about is skincare. Skincare is the base of your makeup and it's even more important aspect in your daily routine. First of all, your skin influences the application of the makeup. And you need to take it into consideration. Knowing your skin and applying the best suited skincare products is the best way to go for the preparation of your skin before the actual makeup application. Likewise it's equally important to take proper care of your skin afterwards. You always need to double cleanse and get all that makeup and dirt away. And maintain proper moisture balance by using different skincare products with active ingredients which are best suited for your skin type. Also you need to be aware of using fake products whether it is skincare or makeup. There are a lot of shops in the market selling fake cosmetic beauty products for a cheap price. Those products tend to have many harmful chemicals and other ingredients which is really harmful for your skin resulting in many skin diseases, allergies, skin cancer and other issues. So you need to be extra aware and get only authentic and safe products for your skin and body.

*"Beauty is good
for
your soul"*

Continued....

Moreover, my journey as a makeup artist has definitely changed my life in many ways. I wouldn't be who and where I am today if I hadn't believed in my inner self. It was definitely not the easiest route. Because there was a lot of hard work, struggle and dedications involved. And it is not that easy as it sounds. During my starting phase, I wasn't sure of what was coming. I grabbed all the wonderful opportunities sent my way whether it was big or small. I did it because I enjoyed every bit of it. Back then, there were fewer opportunities for artists compared to the current situation in Nepal.

Before all of this, it was definitely hard to convince my parents as well that I wanted to choose my career as a Makeup Artist; also because there weren't as much opportunities at that time. However as they saw me working hard, doing good and being independent at such young age, they're extremely supportive. And I am more than grateful for everything. It wasn't a particularly strong career at that time so not everyone's parents were very accepting of this career for their child. Also there weren't as many men makeup artist active in this field as they are now. And having experienced the good change, I'm really happy how everything has been more advanced and changed for the better in these years.

*"Beauty is about
being comfortable
in your own skin"*

I'd say the beauty and fashion industry has definitely taken a big step ahead in our country than it was before. People here are more accepting and consistently keeping up with the new techniques, styles and trends. Nepal is definitely developing in the field of beauty and fashion.

Lastly, I'm still on my journey because I have more to achieve, learn and grow. And be the best version of myself every single day. And I hope you're loving your true self and working very hard; pushing yourself to be the best version of you.

*P.S. I hope you
feel beautiful
today*

BIO-ROBOTICS

Bio-robotics is the use of biological characteristics of living organisms as the base for developing new robot designs. The term can also refer to the use of biological specimens as functional robot components. Bio-robotics intersects the fields of *cybernetics* (the scientific study of control and communication in the animal and the machine.) In other words, it is the scientific study of how humans, animals and machines control and communicate with each other.), bionics(the study of certain biological functions, especially those relating to the brain, that are applicable to the development of electronic equipment, such as computer hardware, designed to operate in a similar manner), *biology*, *physiology*, and *genetic engineering*.

With an understanding of *biomechanics*, engineers can develop biologically-inspired robots with improved and enhanced capabilities over traditional robots, which are robotic! Biologically-inspired robots have greater mobility and flexibility than traditional robots and often possess sensory abilities.

Bio-robotic technologies are often utilized to provide assistance to accommodate a deficiency—either as fully-functioning robots or highly advanced prosthetics; the latter represents one area in which *neural engineering* and bio-robotics intersect as both disciplines are required in order to first signal and then generate movement.

Bio-robotics encompasses a diverse array of disciplines with a myriad of applications. Researchers in Italy, for example, are developing artificial sensing skin that can detect pressure as contact is made with an object. Italian scientists are also exploring the potential for early diagnosis of autism by monitoring sensory-motor development through mechatronic-sensorized toys, such as rattles with force and contact sensors.

To sum up, Bio-robotics in association with different disciplines is really heating the contemporary world. Future is full of “BIOROBOTS”.

TRAVELING : it leaves you speechless, then turns you into a storyteller.

-Ibn Battuta

Sounds way too cliché, right? Well, if you're into traveling and you just can't keep your mouth shut after coming back home from each one of your travel, Battuta's quote might just be your story. I can't be sure about you but *TRAVELSPREE* can assure you it's hers for sure.

There just couldn't have been a better place to be born than Pokhara. Well you may think I'm boasting about the city I was born in, but who wouldn't right? Mountains always enthralled me from the very beginning. Serene lakes and mesmerizing mountains. That is everything I could have wished for if I was asked what I would want in my hometown and that is exactly what I got.

Mighty Annapurna range were so close to me yet seemed so far while growing up. I always felt there was a distance between me and the mountain I loved. That changed the day we were taken on a trek to Ghorepani Poonhill when I was in grade Nine. 14-year-old me was simply loving everything about that trek.

Returning back home from that trek was one of the hardest thing I might have done till that day (ha-ha may not be the hardest but it was hard hai ;)). As time passed, the one thing time is so good at doing, I was busy securing marks and making a career for me (well that is what I thought ha-ha) and my trekking experience halted for a while.

Fast forward few years and I was pursuing civil engineering in IOE, WRC. There were few hikes in between but I missed being

When we were thinking nothing could top that, Mardi trek happened. And I had never been that wrong in my life. Climbing

back in the mountains. And that day finally came. I was still adjusting myself to life in WRC and the trek to Ghorepani (Yes Again!!) just made me feel I couldn't have asked for a better college and friends. And I was so glad to be back again. This time the love for trekking was ingrained on my soul and nobody could take away my love for the mountains.

Trekking bags and shoes became my constant companion. Every semester break, same old bag, shoes and the idiots but a new destination. We loved everything about it. First on that list was a trek to the Annapurna Base Camp. Yes, the same mountain that I was in love with since the time I can recall of. I can recall every minor detail of that trek as I was completely present in the moment. Every single step was a meditative experience. It is the closest I've been to meditation ha-ha. The ecstasy of being so close to the mountain you've always loved can't be put into words. Nothing can do justice to that feeling. My face is lightening up with a big smile as I recall those 5 days of pure ecstasy.

Next on this beautiful list of destinations was Gosaikunda. A magical pond amidst the landscape that might simply be one of the most beautiful you can ever see in your lifetime. The icing on the cake was the snowfall. Every flake of snow that fell on us touched the inner core of our soul. The gloomy weather, snow all around you and a serene pond on the end of the trek, you simply can't beat the experience. And we did all of this bunking our classes. It was that fun. Period .

the steep slope from Sidhing to high camp. You can ask anyone who has been to Mardi and they'll tell how difficult it can

Contd...

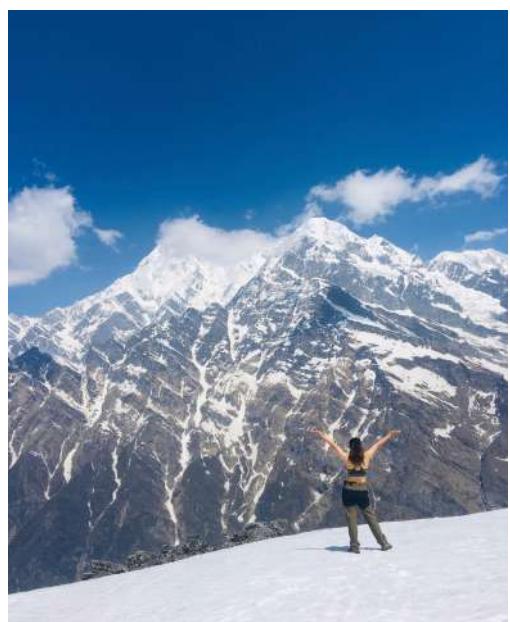

be. But the fun we had didn't let us feel how much we had walked. And the view we got to see the other day was simply magical. Trying to justify the view we saw through these mere words won't do justice to how beautiful it was.

I can't even describe how much fun Kapuche trek was. The incessant rainfall for a number of days had everyone close to us telling us to think otherwise and postpone it for a while. Despite all that, we chose to go ahead and there couldn't have been a better decision. Every single thing about that trek was amazing ;). The Himalayan air had us high throughout the trek. The adrenaline rush that we felt during the entire jeep ride on that rainy day still gives me chill.

It's not just about the destination you go to, but the journey you embark on. Just don't overthink and get your ass up and go on that trip you've always thought of. Trust me you would be surprised to know how you've turned to be a storyteller once you come back home. TRAVELSPREE is even more sure about Mr. Battuta's quote now, what about you?

कोरोना कहर, हामी नेपाली अनि हाम्रा गाथाहरु ...

-Dr. Anupa Wagle
BDS 2016

विश्वव्यापी रूपमा फैलिएको कोरोना भाइरसले नेपाललाई छोएको आज महिनौं भइसकेको छ । छिमेकी मुलुक चिनबाट सुरु हुँदा आम नेपालीहरुले यसलाई नेपालसम्म यसरी आइपुग्छ भन्ने कल्पनासम्म पनि गरेका थिएनन् ।

आज हामी लकडाउन अनि निषेधाज्ञाको चरणमा छौं । कतिले यसलाई नजिकबाट नियालेर हेरेका छन् भने कोहि अझै पनि फेसबुक, युटुब तथा अन्य सञ्चार माध्यममा नै भर परी राखेका छन् ।

कसैले त यसलाई कथाकथित भ्रम , व्यापारिक एजेन्डा अनि भ्रष्टचारको अखडाको रूपमापनि विश्लेषण गरेको पाइन्छ ।

अचम्म त के लाग्छ भने, राष्ट्रियता भनेपछि सबैको रगत ताले अनि एकताका गाथाहारूले आफ्नो पहिचान बनाउन सफल राष्ट्र नेपाल, आज कोरोनाको महामारीसँगको लडाइमा शून्य देखिएको छ । मानवता हराउँदै गएको अनुभूति भएको छ । आफ्नो लागि भन्दा पनि जनताका लागि सोन्ने शासन व्यवस्थाको अभाव महसुस हुन थनलेको छ ।

के हाम्रो राष्ट्रियता सामाजिक सञ्जाल रड्ग्याउन र नारा लागउनमा मात्र सीमित भएकै हो त? के हाम्रो राष्ट्र प्रतिको माया ती बलेका टायरहरूमा मात्र देखिने हो ? वा जनताका गरिबी, पीडा, दर्द, भोक, शोक अनि बाढीपहिरोमा प्रतिबिम्बित हुनुपर्ने हो ?

लडाइँ सधैँ एकै प्रकारको हुँदैन र यो लडाइँ भिन्न अनि अरुलडाइभन्दा निकै नै कठिन छ । यी सबै कुरा हामीलाई अवगत हुँदाहुँदै पनि हामी एकजुट हुनबाट पछाडि परिरहेका छौं । जसले यस महामारीसँग लडिरहेका छन्, उनैलाई नै तिरस्कार गरिरहेका छौं । साहनुभूति, आत्मविश्वास र सम्मान त परै जाओस् मनोबल गिराउने काममा समाज उद्यत देखिन्छ । दिनभरि आफ्नो ज्यान दाउमा राखेर स्वास्थ , सुरक्षा र अन्य अत्यावश्यक क्षेत्रमा खटिएका हाम्रा नेपाली दाजुभाइ तथा दिदीबहिनीहरूले घर

फर्किँदा पाउनु पर्ने राष्ट्रियताको सम्मान अनि के साँचै आत्मगौरव गर्ने पाएका छन् त? आज राष्ट्र उनीहरूकै मेहनत मा अडिएको छ तर हामी भने उनीहरूकै घर घेरेर सम्मान गरिरहेका छौं । एकता त टायर बाल्नेमा नै देखिन्छ नि हैन र ??

इयालबाट हेरिरहेका ती बाँचे आशाले भरिएका आँखाहरुले फलानोलाई त कोरोना लाएर टोल नै खत्तम पारेछ नि भन्ने समाचार हेर्दा कस्तो हुँदो हो !

कहाँ गए आज ती नेपाली जसले आइपरेको खण्डमा मेरो ज्यान लैजानुहोस भन्ने गर्दथे । आज समाजलाई ज्यानको बलिदानभन्दा पनि एकताको खाँचो छ । उच्च मनोबल, हौसला र सकारात्मक वातावरणको जरुरतछ । आफू र आफ्नो परिवारलाई मात्र जोगाउन सके आधा लडाइँ सकिन्छ । यो लडाइ भिन्न छ तर जित्र नसकिने भने पकै पनि हैन । नेपाल र हामी नेपालीले धेरै आपत विपत् जितेर आइसकेका छौं । सतर्कतालाई तिरस्कारमा बदल्नु हुँदैन, सम्मान र सहानुभूति भित्र बाँचे अनि बचाउँने गर्नुपर्छ ।

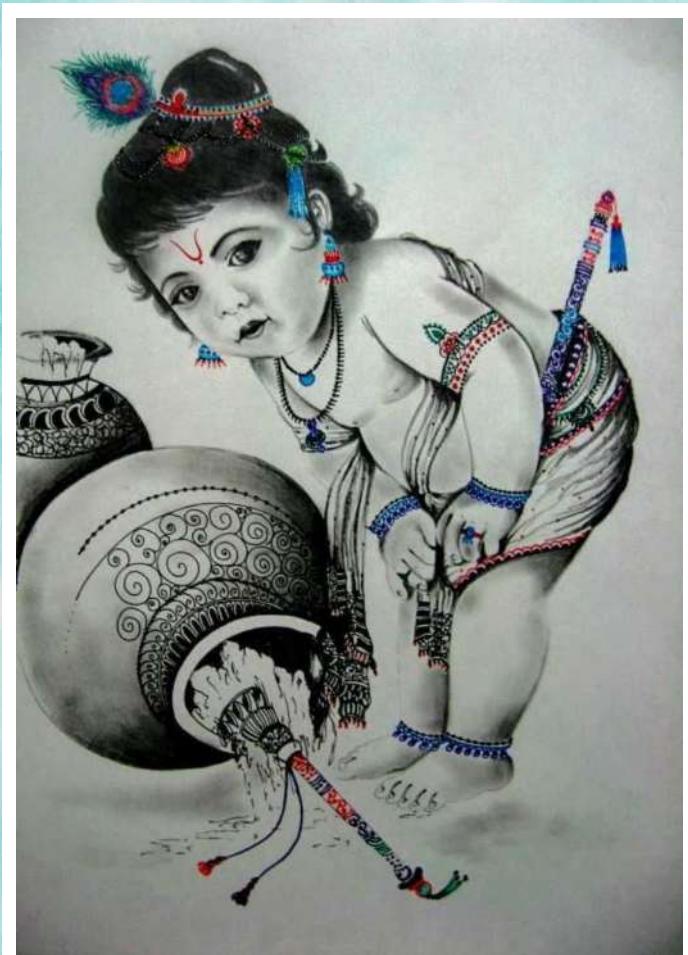

सलाम छ ती सबै आइसोलेसनमा बसेर सङ्क्रमण फैलिनबाट जोगाउन मद्दत गर्नुहोने योद्धाहरूलाई, दिन रात नभनी हाम्रो सेवामा निरन्तर रूपमलागेका स्वास्थकर्मी अनि सुरक्षाकर्मीहरूलाई !

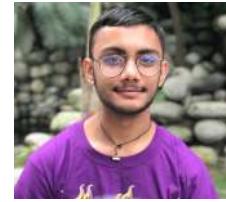

यो लडाइँ एकताले मात्रै जिल सकिन्छ ,
के तपाईं हाम्रो पहिचान झल्काउन तयार हुनुहुन्छ ?
महामारी , नेपाल, हामी नेपाली अनि हाम्रा गाथाहरु....

MEDICO-ROTARACTORS

Medicine is a way of making the drug act,
Using this in health and community is what makes you a rotaract.
People above 18-30 are the ones called Rotaract,
Medicos, the ones who help Rotaract become the best which is a fact.

Projects, Meetings and varieties of thought that Rotaracts develop,
Mentorship, Responsibilities etc something that eventually evolve.
Developing Leadership is the thing we state the most unique,
Medicos awaking people from problems is something that helps us reach the peak.

Project "AajakoSabda" is the one that gets the morning fresh,
Our President Prabin Gautam brother who always with his skills helps the anxiety go to mess.
Thankful to GMC for having an enthusiastic members in the club of Rotaract,
Couple of months of Rotaract but Pride that makes me act.

IBMS, Com med, Forensic and many more always in our head,
Thanks Rotaract for making a heck of depressions fade.
Mental Health, Breast Feeding and Holistic health; something we organized,
Created the mental skills and got the broad study of life memorized.

Proud we are as we can conduct the awareness issues,
Medicos we are who make the health issue so easy to pursue.
Reason, Medicos are the one true inspirations and motivators,
Thus, we proudly call us Medico-Rotaractors.

As a keen rain lover, I love to gaze from the window for entire the duration of the rain and just staring at the raindrops as they hit the ground. I am awestruck by them; amused I am totally lost in that very moment. The beauty and serenity of rainfall brings a manic glee in my heart. I think it is one of cosseted and lavish environment for the earth which is gifted by nature. Inner satisfaction and joy from the smell of the rain and just listening to the melody sound of the rain absolutely breed self-confidence within me. Withstanding a heavy downpour and refusing to take shelter like everyone else, every drop of the rain teaches me resilience and to be more contemplative. It seems as if it is lunatism to count the numbers of raindrops cheering on a water stream but indeed it is awesome .In every moment, the rain trains me to be present and to get the best from every single moment in life.

I find the world more beautiful when it rains. I lay hold of blue skies that is more charismatic with mesmerizing rainbows after dark gloomy grey skies. Sound of raindrops gives a resonance echoing in the ear which dampens the inner vibes of one's soul.

Wrath and Terror

Wrath and Terror of the night,
The pitch black darkness;
Back in the alley a child cries.
Writhing agony fills up within,
Just as the pain that builds up,
Leaving every bit of it numb;
With incoherent feelings,
Inexplicable that is.

Helpless cries no longer heard,
His fading soul held by a mere strand;
Ragged breaths and his silver soul,
Engulfed by the ruthless night;
As he painfully waits for the dawn,
For the warmth of the sun he yearns.

Far and Free

Far and free
Where I stand
Is a world beyond
Of a mortal's comprehend

I soar the sky
With my steed
Travel the infinite
How could it be a mortal's deed?

Above are the stars
Below are the clouds
And yet I stand
How did I hold my ground?

Hounds they howl
Under the clouds
Winds they scowl
Under my bounds

My steed is my pride
Wind is my ally
Beyond is the infinite where I stride
Far and free in the starry night

Embarking Struggles and Embracing Life

"Life isn't a slave to lavish and opulence, rather a battle ground of struggles!"

The definition of life lies within us, it is not bestowed from outside, and it far surpasses in both its elegance and permanence any paradise of which people have ever dreamed or yearned for. One drop of water will not arrive at the ocean; it will evaporate along the way. Likewise, a single struggle does not create a plethora of success. Sometimes life gifts us a chance, and sometimes we should endeavor to create a chance. Hardship never knocks our doors. We all tend to run away from sufferings that struggles bring along with them. However, the fact is that without suffering, there is no way to cultivate understanding and compassion.

Even a round rock that falls off from the top of a cliff becomes more pointed, and its edges are sharpened after the hardest fall. It teaches us how struggles shape us. No one is grown wiser and stronger, but with all the experiences and hard times we undergo, we eventually become wiser and stronger than before.

Our oceans like dreams are stretched before us like the beginning of an interminable waterway. These dreams are the same that keep our nights sleepless, making us reluctant to leave no stones unturned to make them come true and stumble across our strength. On the one hand, life can be bounded by tunnels of tragedies, agitations, fear to perish, and hopelessness; but on the other hand, it can be joyful, and our souls could expand in ecstasy just even with

a feeble rope of hope.

A well-accepted and known fact, human desires are illimitably ever-expanding. Nevertheless, desires without struggle are what create conflict. Wishing never works, efforts do. Stepping out of our comfort zone requires a level of dedication and perseverance, which thereby leaves our rooted desire of lush and inherited richness behind. Einstein would not have developed the theory of relativity, or Wright brothers would not have invented the airplane if they had not chosen the path of difficulties. We all have been immensely blessed with jaw dropping discoveries and great inventions which are actually the fruits of those great inventors', researchers' constant struggles. That's why practical belief of "Difficult road leads to beautiful destinations" is already exemplary to us.

Confidence and struggle are a bristling blend of both perseverance and brilliance, making the difficult look easy, and the complex seem intuitive, while trust brings balance though struggles are always a part of every journey. Because somewhere at the discrepancy between thrashing tears and joyful smiles, we hold onto the meaning of life embarking upon the journey of struggles with unending series of ups and downs.

"आफू कहिले ठूलो भएको पत्तै पाइन"

बाबा आमाकी कान्छी छोरी म
सानैदेखि बाबा आमाकै काखमा हुर्किएँ
कुनै कुराको कमी भएन मेरो जीवनमा
मायै मायामा आफू कहिले ठूलो भएको पत्तै पाइन ।

"काम किन गर्नु पर्यो , हामी छँदै छौंनि"
भनेर सम्झाउने मेरो प्यारो बाबा
"पढ्ने बेला हो पढ है छोरी"
भनेर सम्झाउने मेरी प्यारी आमा
साच्चै, कुनै कुराको कमी भएन मेरो जीवनमा
मायै मायामा आफू कहिले ठूलो भएको पत्तै पाइन ।

मेरो एउटा- एउटा रहर पुरा गर्ने मेरा प्यारा बाबा आमा
मलाई पनि त केही गरेर देखाउन मन थियो नि मेरो जीवनमा
सानैदेखि भन्ने गर्थे रे,
"म त ठूलो भएर डाक्टर बन्ने हो"
अनि मेरो बिरामी मेरी प्यारी आमाको उपचार गर्ने हो
हुन पनि हो , कुनै कुराको कमी भएन मेरो जीवनमा
मायै मायामा आफू कहिले ठूलो भएको पत्तै पाइन ।

हेदहिँदै अहिले त २० कटेर २१ लागिएछ
तर पनि बाबा आमाको मायामा कुनै फरक देखिएन
आमा साथमा नभए पनि दुवैसरह माया दिने बाबा हुनुहुन्छ
अहिलेसम्म पनि, कुनै कुराको कमी भएन मेरो जीवनमा
मायै मायामा आफू कहिले ठूलो भएको पत्तै पाइन ।

आमाको याद

आमाले जति मीठो तरकारी बनाएर खुवाएपनि

"आमा, यो भएन , त्यो भएन" भन्ने म ,

आज एउटा घिरौलाको तरकारी बनाएर खुवाइदिए पनि

कति खुसी भएर खान्थैँ होला म ।

आमाले ल्याइदिएको लुगा

" मलाई मन परेन छ्या " भनेर फाल्दिने म ,

आज १ जोर मोजा ल्याइदिए पनि

कति खुसी भएर लाउथैँ होला म ।

आमाले झुक्किएर एकदिन अर्कैं किताब ल्याइदिनु भएछ

यसमा पनि रोइकराइ गरेर झगडा गर्ने म ,

आज एउटा पेन्सिल ल्याइदिए पनि

कति पाना कोर्थैँ होला म ।

मलाई एकान्त चाहिएको छ आमा

यहाँबाट जानुस् भन्ने म ,

आज आमाविनाको यो संसारमा एकचोटि आमा आएर

"नानू" भनिदिँदा कति खुसी हुन्थैँ होला म ।

A JOURNEY TO MUSTANG

Mustang, a place like heaven!

Lying on the laps of the mighty Himalayas; Mustang is a dream destination for all of us! Mustang has to offer a lot from the Landscapes to the Soul Freezing Wind, The Muktinath Pilgrimage to the breath-taking views, it caters every age group's interests.

We, group of Seven Friends went out on this Journey.

A Bumpy six hours ride from Pokhara and you'll reach Jomsom, A place like nowhere else, there's a different calmness. The houses are all made by huge stones with mud-walls and the architecture definitely has a unique touch of its own. We stayed at Hotel Alka Marcopolo, and we're welcomed by Little Chubby kids with such warm smile on their faces. The owners of the Hotel were so friendly and hospitable. We had such a delicious Lunch consisting of Thakali Rice Set.

After we finished our Lunch we went out to explore Jomsom, the mystical landscapes, beautiful mountains: Annapurna and Dhaulagiri, the barren land were absolutely spectacular! The weather of Mustang gets pretty windy after 12 noon so we couldn't get out of the hotel in the afternoon.

The Next day we planned to go to Muktinath, we headed to Muktinath early in the morning and the road from Jomsom to Muktinath was Surprisingly Blacktopped and it was such a smooth ride. We even got to ride a horse to reach the temple.

Muktinath temple is dedicated to Lord Bishnu and is sacred to both Hindus and Buddhists. It

lies at the foot of the Thorong La mountain pass. The main attraction is the 108 stone water spouts from where the water of Kali Gandaki flows and is believed to cleanse one's soul. We reached Muktinath Temple and worshipped the god. Some of us took a shower in the 108 stone taps but I was just brave enough to touch the ice cold freezing water!

From Muktinath we went to Kagbeni Village, Kagbeni was simply beautiful; the silence of Kagbeni resonated in my soul. We saw Buddhist monasteries, chortens and stupas, prayer stone walls, monks in red robes, and women in colourful striped Tibetan aprons all around.

The Next Day we went to Marpha, "The Apple Capital of Nepal". Marpha is famous for its juicy apples, Marpha Brandy, Apple, Sukuti and jams produced from the local fruits. We tried the freshly harvested Apples and it was literally the best apple I've ever had in my life. Marpha has small white painted stone alleyways which are definitely aesthetically pleasing.

The trip to Mustang has been one of the finest experiences for me. As a Nature lover and an observant learner it was wonderful to sink in every bit of what Mustang had to offer, the Red-flushed cheeks and cracked lips of the ever-smiling Children taught me to be content with whatever I have. The hospitable and hardworking people, the rich culture, extraordinary nature. Mustang should certainly be in your Bucket-list!

बर्तमान समाज

द्विसमिसे त्यो दिन, जहाँ घामले आफ्नो राम्रो मुहार देखाउन तम्तयार थियो। वरिपरि चराचुरुङ्गीको आवाजले अझैं त्यो बिहानको शोभा बढाएको थियो। मानिसहरुमर्निङ वाकको लागि आफ्ना पाइला हरुलमकाऊदै थिए। घरको मन्दिरमा आमाले घण्टी बजाएको पनि एकदिनको लागि मात्र हैन। जीवन धेरै राम्रो छ भन्ने कुरा मलाई त्यो बिहानले स्पष्ट सङ्ग बताइरहेको थियो। सबै जना आफ्नो जीवनमा रमाइरहेका थिए। तर अर्कोपटि मानिसहरुलाई मोबाइल फोनले गुमराह गरेको छ भन्दा पनि केही फरक पर्दैन। मानिसहरु बिहान उठेर बाट बेलुकी सम्म आफ्नो भर्मित जिन्दगी बाची रहेको छन् भन्ने कुरा पनि एउटा तीतो सत्य नै हो। हरेक कुराको दुई वटा पाटो हुन्छन् एउटा राम्रो अनि अर्को नराम्रो पाटो, राम्रो कुराले धेरै फाइदा गर्ने गर्छ।

हामी बिग्यान तथा प्रविधिको युगमा बाचिरहेको हुँदा हरेक कुरा केहि नजानेको जसरी गर्ने कुरा पनि त आयन। केहि काम परे नेटबाट फोन गर्यो अनि लगभग आधा काम त्यही सकिन्छ। त्यसले मानिसको समयको बचत त हुनि नै भयो तर त्यो बचेको समय कसरी प्रयोग गर्ने भन्ने कुरा त आफ्नो हातमा भै नै हाल्यो। हामी सबैले नै अहिलेको युगमा सदुपयोग गरिरहेकै छौं। चाहे देश बिदेशको घटनाको बारे थाहा पाउन होस वा आफ्नो नजिकको

मान्छेको खवर सोध होस नेटबाट सजिलै नै गर्न सकिने भएको छ।

झन् अहिले त सामाजिक सञ्जाल जस्तो बलियो अरुके नै होला र। केहि घटना घटेपछि त्यसको लागि धेरै ह्यासत्याग बन्छन् तर ति मामला पनि ह्यासत्यागमै सिमित रहेको कुरा पनि नकार्न सकिन्दैन। अहिलेको जल्दोबल्दो घटना बलत्कार जुन शब्द सुन्नासाथ मुटुको धड्कन रोकिन जान्छ। न त त्यो घटनालाई स्विकार गर्न सकिन्छ न त त्याग गर्न नै। अहिले हरेकको मोबाइल फोनमा बलत्कारको घटना स्क्रिनमा छर्लङ्ग देख्न सकिन्छ। जब यस्तो कुरा सुन्नमा आउँछ तब मनमा सुरुमा आउने भनेको नै अपराधी लाइ फासी दिने नै हो। एउटी छोरी भनेको त लच्छमी को रूपमामानिन्छन्, तर यहाँ उसैलाई त्यस्तो गर्ने कलडङ्कहर चाहिँ कस्ता! किन ति कलडङ्कहरुले आफ्नो घरमा पनि आमा, दिदी बहिनी छन् भन्ने कुरा बिर्सिन्छन्। छि! छि! सुन्दा पनि घृणा आउँछ त्यस्तो मान्छेको बारे जसले आफ्नो परिवारको सदस्य चाहिँ मान्छे अनि अरुकोदिदी बहिनी चाहि प्रयोग को रूपमामात्र हेर्छन्। दिनमा पाँच छ वटा यस्तो घटना भैरहेको हुन्छ तर यक दुई जनाको मात्र समाचार मा आउँछ, अनि बाकि रहेको तीन चार जना, उनिहरुलाईन्याय कसले मागिदिनो ?? बलत्कारको डाटा हेर्दा पनि दिनहु बढिरहेको छ, के यो आधुनिकीकरण को असर हो या यो कलयुग हो?

Dear Rain

Dear rain, every time you lash down, you delight me with your charm.

You never fail to bring back all those bittersweet memories that I've with you each time you come.

You remind me of my childhood days, those paper boats, a dirty dress covered with you and mud.

You helped me hide the sobbing sound every time I cried. It's been long so come and drench my soul as it has become dry.

Call your devil pals, lightning and thunder not to bring darkness in the house that has got no lights but to clear out all the evil faces behind the fake smiles.

Take away big palaces built with corrupted resources and let all the tiny sticks of hope stay.

Wash away all the pathetic hearts, disloyal beings, unkind souls that mother earth has been carrying for ages. Shower over us and take every bit of dirt away just leaving a pure soul behind.

Dear rain you come and drench my dry soul.

Dear rain you come and bring a fresh day to start.

कहर

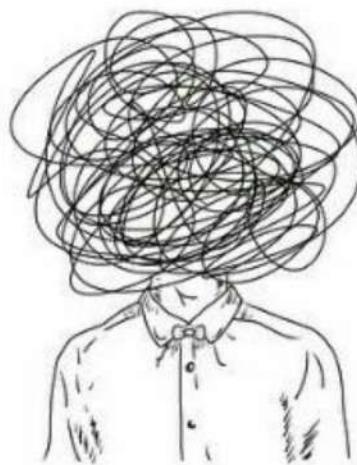

धैरै दिन पछि आज
कापी रोयो कलम रोयो।
शहर देखि गाउँ छोयो
प्रदेश हुँदै देश रोयो॥

कोही खान्छन थरी-थरी
कति भोकै बरी।
कहिले जाला कहर भनि
रुन्छन घरी-घरी॥

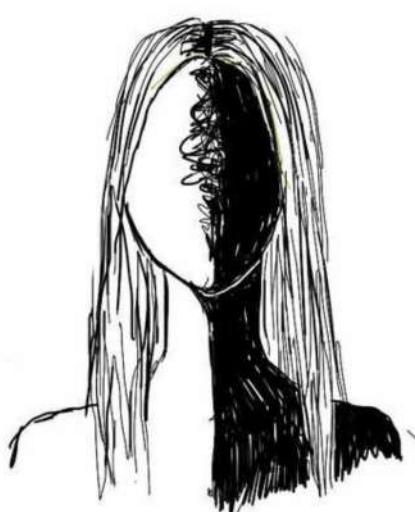

उडी छुने रहर त्यो
कोरोनाको कहर भो।
मानिसको मानिससँग
आपसमा त्रास भो॥

भोग्यु पर्छ हामीले नै
प्रकृतिले दिए पछि।
बुझि ज्ञान लिन पर्छ
समयले दिए पछि॥

शहर देखि गाउँ रोयो
प्रदेश हुँदै देश छोयो।
धैरै दिन पछि आज
कापी रोयो कलम रोयो॥

सेनिटाईजरले हात धोयो
अनुहारमा मास्क लायो।
येता हुँदै उता छोयो
साबुनले हात धोयो॥

तहि पनि रोकिदैन
कसै गरी छेकिदैन।
प्रकृतिको प्रवृदि यो
अनौठो छ प्रकृति त्यो॥

नदुखेको मन दुख्यो
नबुझ्नेको मन बुझ्यो।
न रोकियो बलले नै
न त छेकियो धनले नै॥

मानव अधिकार

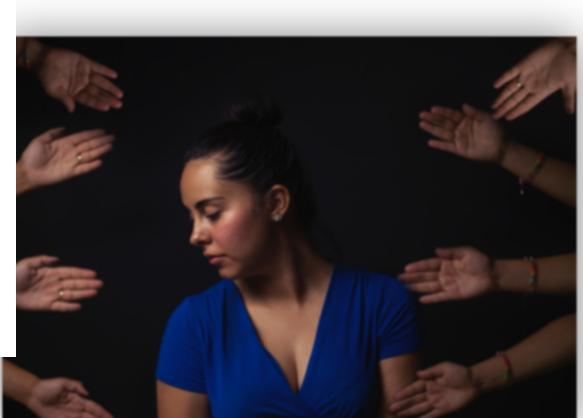

म उभिएर खोजिरहन्छु मानव हुनुको पहिचान,
जब एक नावालिंग बालिकामा पलाउँदै गरेको उत्साहलाई
थिची मिची र लछारी उनलाई बलाल्कृत बनाइयो,
जब आफ्नो मनको भावना स्पष्टसँग व्याख्या गर्न खोज्दा
निर्दोष महिलामाथि तेजाव खनाइयो,
जब गर्भमा पलाउँदै गरेको कोपिलालाई संसार देख्नबाट वञ्चित गराइयो,
जब जन्म दिने मातापिताको गला समाइ
सम्पति खोस्न सपुत जोसियो,
शान्तिको आशा देखाई धमाका रोजियो
अनि गरीबको उत्थानका लागि हतियार बोकियो,
तब तिनै मातापिताका आशु सँगै झरको
छ मेरो अस्तित्व ,
बालिकाको आशा सँगै मरेको छ मानव हुनुको महत्व ।

तथागत म सँग प्रश्न छ तिमिलाई ,
के हो तिमिले व्याख्या गरेको मानव अधिकार?
पिडितबाट राहत खोसी फेरिएको छ
सरकारको मुहारा ।
किन सुनिदैनन् दिनदुखी र निमुखाहरुको पुकार?
अझौं पनि मौन छौं तिमी, के तिमिलाई
छ यो सब स्वीकार?
खै कहाँ गयो सडक बालबालिकाको
लागि अनिवार्य र निःशुल्क शिक्षाको अधिकार?
होटलमा भाँडा माइदै गरेका ति काले, भुन्टे र कान्छाको खेल र पढन पाउने अधिकार?
८० वर्षका कान्छा बा आफ्नो वजन भन्दा ठुलो भारी बिसाउँदै र
चोर औलाले पसिना पुछ्दै
खइ काड्छन् ।
खै ज्येष्ठ नागरिकको सामाजिक
सुरक्षा प्राप्तिको अधिकार?

अस्ति जुम्लाकी माइली भाउजु
प्रसव वेदनाले मरिन रे,
हिजो अछामकी साँहिली बैनी पनि
छौपडीमै बलाल्कृत भइन् ।
खै तिनीहरुका स्वास्थ्य र सुरक्षाका अधिकार?
निष्पक्ष समाचार लेखेहरुलाई जेल पठाइन्छ ,
अनि
गीतमा भावना पोखेहरुलाई धम्क्याइन्छ यहाँ ।
खै कहाँ हरायो प्रेस
स्वतन्त्रता र वाक स्वतन्त्रताको अधिकार?

मलाई थाहा छैन मानव अधिकार के हो,
तर यी र यस्तै अनगिन्ती प्रश्नहरुले
म आँफैलाई जिस्क्याउछन्
के म साँचै मानव हुँ त?
फेरि ऐना अगाडी गएर हेर्छु,
सर्लक्क परेका दुई हात खुट्टा र यो शरीर
अरुजीव भन्दा फरक छ ।
सडकमा हिडीरहेको कुकुरलाई
दुंगाले हानेको देख्दा
पशु अधिकारका लागि कुरा गर्न मान्छे म,
निरीह पशुज्ञै मानवका वलि चढाइरहँदा मैन छु ।
अनि कुन मानव अधिकारको कुरा गरौँ?

महासयहरु,
यदि तपाईँहरु सँग मेरा यी सबै
प्रश्नले निराश भएका मनहरुलाई
उत्साहित गर्दै उदासिन
अनुहारहरुमाविश्वासको संचार जगाउने
उत्तरहरु छन् भने,
विश्वास गर्नेछु
म मानव समाज भित्रै छु,
मानवको अस्तित्व भित्रै छु।
अन्यथा मानवतालाई जेलमा थुनेर,
फगत
मानव अधिकारका लागि गरिएका भाषणहरूकोअर्थ,
यो समाजले आँफै खोज्ने छ ।।।

Enigma

Don't know where, I'm going
Don't know what, I'm doing
Just crawling, just eating,
Sleeping by the nine;
Just scrolling, just breathing,
Killing all of time.
Deeming a lot,
How to get back to fight,
And uplift from descent;
Feeling too short;
To reach the height,
Of dream that been dreamt.
Don't know where, I'm going
Don't know what, I'm doing
Just tickling, just spending
a countless vibe;
Just living, just ending
A so called life.
Life is enigma.

An Enigma or In Enigma??

An Accidental Medico

It's a story of a medico
Long ago with a face glow
In his studio listening to a radio, audio with a high tempo seeing rainbow,
He wished to be CEO of a large show.
Years passed and life happened.

He missed his flow, flew in a blow like a willow
Undergo, felt vertigo and
A dynamo lost his ratio.
He was feeling low,
So, he threw himself to below in row, to have a cameo,
Oho, in a Medicine,
Oh, in the medicine, Nooo

Everything seems dark here
Everything is dark here
Slowly slow,

He started distinguishing crow from buffalo
Shit, here come these fucking microbes,
Only seen under microscopes in a lab of micro,
Cell grow with their own will and we have to
See it using indigo in a patho
Guyton also didn't know what he had written in a physio
Ah-naa, here teacher himself study from elbow to a toe
Biochem studying or not is similar though and
Remaining one is like memorising dictionary, yooo
Everyone underrates Com-med,
No one knows although
I know,
How much I know,
I know as much as Jon snow.

An accidental Medico? Oh yo..... An accidental Medico.

Path Of Life

As Path is a way of life, the direction in which something is moving; a set of actions, especially ones that lead to a goal .life has been pretty good to me but that doesn't mean I have always chosen the safest path. I've made my mistakes, plenty of them. I sometimes jump too soon and fail to appreciate the consequences. But I've learned something important along the way: I've learned to heed the call of my heart. I've learned that the safest path is not always the best path and I've learned that the voice of fear is not always to be trusted. If the doom of failure stifles some time the path of our life, it can pin us down like downtrodden .Meanwhile, the world around is erupting in joy and contentment.

Let's go back then to the nuts and bolts and consult the core of our inner self. Don't forget the path you are walking through sudden flare of past might stalk you. Never allow moments to mock you. Believe in yourself and Move on with the lessons learnt for a brighter purpose in life .We often become fixated on the negative experiences of life. The good times go unnoticed because there's no drama, but it is important to celebrate when things go well .The key is to be true to the very best that is in you, and to live your life consistent with your highest values and aspirations. This is the only way to truly learn how to believe in you; yourself. Take some time to think about who you are and what you believe in and what is important to you

I BELIEVE
IN YOU.

When I was in high school, I had a friend who lived in my neighbourhood. Since I was always a jolly and extroverted type of person, it was easy for me to get introduced to him and at last we became good friends. We used to go to college together. He was doing very well in his studies. In fact, he was the brightest kid in class, the teacher's favourite, one of the well behaved. He never created any disciplinary problems and always hung out with good circle of people." The best little boy in the world" one of the teachers used to address him with the most melodious voice.

But there was one thing which always disturbed me. He was always cheerful on his way to school and sober on his way home. I was always curious but since he didn't talk much, I had no choice but just to stay quiet and talk about other things. As we lived in the same neighbourhood, I never saw him coming out of the house on weekend playing and spending time with other kids. He actually never came out of his house except the time when he went to school. Since, staying at home completing homeworks and assignments and doing household chores was considered ideal, no one actually bothered. Whenever we discovered someone fighting or arguing on our way, he possibly wanted to change paths. He was afraid when people raised voices in an argument and would actually agree with them immediately.

One fine evening, there was an incident in the neighbourhood. His mom was found lying drunk on the pavement. People gathered but didn't help because they didn't recognize her. When I reached there, he just came running out of the house when he saw the crowd. He immediately picked her up and I helped him to take her inside the house. When I looked around I saw beer bottles compiled in one corner. There were dozens of them. The next day when I asked him how his mom was doing he shared that she usually got drunk. I was really surprised .When I asked him why he wouldn't

do anything about it; he simply said that she loves him and assured that this will never happen to him.

After the incident, I found out they were moving to a new place because of the deteriorating financial condition and the pressure from the neighbours. I was not able to say a proper goodbye to him and his mother. But as always life had to keep moving, after couple of years I saw him again working near my home. But this time, the aura and the charm which inspired me when he was my batch mate was lost somewhere. When I went to talk to him, I found he had begun drinking after the death of his mother due to liver failure. He subconsciously had already made up a mind that drinking was the only way to tackle pain from his mother's death. The next day I approached to help him but he had already gone somewhere else.

The incident struck me so hard how the activities, behaviour and thoughts of the person you look upon; be it your teacher, guardian, family member or friends impact your life either consciously or sub-consciously. So it is very important for each of us to spread the positivity and happiness among everyone we are surrounded with our act of kindness because an unseen fabric of love, care and respect binds us all. So it's our duty to protect the fabric for ourselves and people we love.

Justice

Singing, jumping, dancing joyfully
She walked along the road.
The road that always felt cozy
Warm, comfortable and her own
Until the moment
Someone caught her, forced her
To the field with green grasses
Fluttering along the pace of wind.

Those eyes filled with innocence
Those which always shined so bright
Unaware of the sight waiting ahead
Her hands so small and not so strong
To fight back the devil
Trying to touch her here and there
She screamed and cried
Tried her best to fight

Tears ran through her face
Her scream stopped
Her body went numb
She couldn't feel her existence
As her body was being used
For somebody else's pleasure
And she was still lying there alive
But her soul inside was all dead.

She who never thought ill of anyone
She who was busy enjoying her life
What wrong did she do?
What were her sins?
For what and why
She had to pay her body
Her soul, her happiness.
The good soul died for no reason
And the devil lives happily ever after.

Kindness above all

Kindness is choosing love over hate, light over darkness ,compassion over judgment .However, kind words can be short and easy to speak but their echoes are truly endless. Too often we underestimate the power of a touch, a smile, honest compliment ,kind words or the smallest way of caring all of which have a potential to turn a life around .The smallest act of kindness is worth more than the greatest intention.

Kindness is igniting light in someone else foe no reason other than to watch them glow, extending yourself in a way that uplifts other human being whenever there is a human in need or there is an opportunity for kindness and to make a difference as a single act of kindness throws out root in all directions and the roots spring up and make new trees.

Kindness makes you the most beautiful person in the world, no matter what you look like. So every time we choose kindness , we make everyone around us a little better and the world a little braver.
